Restyling A10
NEW

A10
182TC motor
OLD

ADVANTAGES

The new K2-K4-K5 variator is a restyling of type A2-A4-A8-A10-A12. All the fixing dimensions are unchanged, only few secondary measures change.

The new model has the same performance of previous one, but with some other functional advantages for which you can see next table.

| | New K5 | Old A10 |
|------------------------------|-------------------|-----------------|
| Input Rotation | | |
| Mounting position | UNIVERSALE | TO BE SPECIFIED |
| Output Torque | ADJUSTABLE | NOT AVAILABLE |
| Speed Indicator Wheel | INCLUDED | EXCLUDED |
| Speed controls | SAME | SAME |
